The New York State Young Republicans (NYSYR) announced endorsements for Young Republican National Federation (YRNF) Office this past weekend at the NYSYR Winter Board Meeting on Saturday, March 12th in Newburgh, NY.

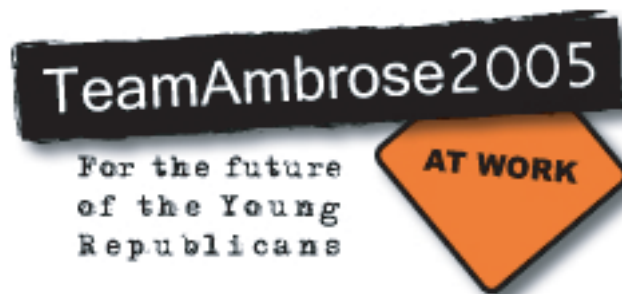

At the meeting, each candidate was allowed time to present themselves as well as field any questions the membership had to offer. "Today was a great day for all New York State Young Republicans. Our elections were left open to our member counties and those members came out today, to cast their votes. We are honored and thank all the candidates for office that sought our endorsements and attended our meeting. It was our pleasure to host them and we hope they had as good a time as we did this past weekend." said NYSYR Chairman Jason Weingartner.

Nicolee Ambrose, Secretary of the YRNF and Chairman of the Maryland Young Republicans spoke about the successes of her home state and how she planned to bring that success to a national level. New York's support was a great addition to her campaign endorsements, "Support from Jason Weingartner and the New York State Young Republicans is critical to our success," Ambrose said. "We thank the Empire State for its confidence in us and look forward to working with them to build the YRNF."

Running with Nicolee is NYSYR 2nd Vice-Chair Tim Kolpien, a fellow New Yorker with 12 years of YR experience. The NYSYR is very proud to support him in his quest for Co-Chair. "I am especially honored to have the support of my home state," Kolpien commented. "The New York State Young Republicans have a strong record of recruiting more young professionals to the Republican Party. We hope to replicate that at the national level."

The NYSYRs also endorsed Glenn Murphy, Chairman of Indiana and current State Chairman's Association Secretary, as well as candidate for Secretary of the YRNF, "I want to thank New York for a fair and open process and Orange County for putting on a first-rate board meeting. I was truly impressed by the dedication and professionalism displayed by New York's Young Republicans. Thank you for believing in me."

Brian Houston Graham, Finance Chairman of the Florida Federation of Young Republicans stated, "I am very excited to be endorsed by New York. We will work tirelessly to rebuild YRNF finances and appreciate New York's support in this vital task."

White Plains, NY - After holding its monthly meeting tonight, the Westchester County Young Republicans Executive Board unanimously voted to support Nicolee Ambrose of Maryland for the position of Chairman of the Young Republican National Federation.

"Nicolee has really impressed me with her knowledge of local club issues and her vision to push the YRNF forward." Westchester YR Chairman John Cerino said. " She was originally the chairman of a suburban Young Republican club and understands what it takes to increase membership on the local and state levels."

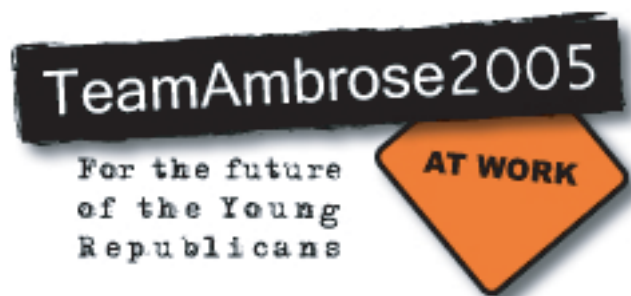

Chairman Cerino said that he was not only impressed with Ambrose's credentials but also her character. "Very simply, Nicolee put in the effort to find out how Westchester's club was coming along and shared stories of what strategies worked best with her club. That's the type of leader our organization needs right now"

Ed Torres, National Committeeman for the New York State Young Republicans has also made the decision to endorse Nicolee Ambrose for YRNF Chairman.

Ed Torres stated that Nicolee has demonstrated the organizational skills needed to bring the YRNF back on track. "She will return the respectability of the YRNF to its rightful place."

" I truly believe that the plan Nicolee has put forth is the best direction for the YRNF to go towards." "Having been an active member of the YRNF since 1998 it was refreshing to see someone reach out to so many throughout the country to hear their thoughts and concerns as Nicolee has done."

The Westchester County Young Republicans is a vibrant YR organization located in the northern New York City suburbs. They have a long history of providing support for candidates and Republican committees on the local, state and national levels.
