Mark Green, Chairman of the Tennessee Young Republican Federation, a statewide organization consisting of over three hundred members, is pleased to announce its endorsement of Nicolee Ambrose of Maryland for Chairperson and Tim Kolpien of New York for Vice Chairman of the Young Republican National Federation. The election will be held at the organization's convention this July in Las Vegas.

Green knows that the best person for the leadership of this national Republican organization is Ambrose who brings a wealth of experience serving as the State Chairperson of the Maryland Young Republicans and on the YRNF executive committee for the past two years.

Likewise, Green believes Kolpien is a person with great skill and experience in his time serving both the YRNF and the New York Young Republicans. Together," Green states, "Ambrose and Kolpien are a dynamic, energetic and outstanding team. All state YRs need to rally and support their election."

"An under-whelming two years," is how Green describes the YRNF under the current leadership. "One that started with controversy in Boston and never seemed to recover. Chairman Mack hasn't communicated with Tennessee on anything," Green stated noting that Tennessee did support the opposition that ran against the Mack ticket in 2003. "Nicolee, however, was one of a very few who did communicate and that's why she has our support. She has proven that Tennessee matters to her and her team. I expect her and Tim to provide the leadership this organization needs - be it for large states or for small. There was a time when Tennessee always had people in national leadership positions. I hope that time will return under Ambrose and Kolpien. I look forward to Tennessee Young Republicans once again having the opportunity to participate."

Green also notes that Nicolee's relationship to former Tennessee Senator Bill Brock and his family is a positive influence, though not the deciding factor. "Nicolee and Tim are the right people for the job, hands down. I absolutely look forward to working with her administration."
